Marcello Annicchiarico

Senior AI Frontend Developer UI/UX Designer

Frontend Architecture Lead with 10+ years of experience architecting and scaling enterprise-wide Design Systems and high-performance PWAs for complex SaaS and B2B platforms. Expert in orchestrating AI-native workflows and integrating LLM-based agents (Copilot, Claude, Gemini, ChatGPT) to accelerate the SDLC and build intelligent, data-driven interfaces. I specialize in turning intricate business logic into intuitive user experiences, leveraging deep expertise across Vue, Svelte, and React to drive the delivery of impactful, AI-augmented digital solutions.

INFORMATION

Nationality: **Italian**
Location: **Germany Berlin**

Email: **marcellokabora@gmail.com**
Accounts: **Linkedin**, **Github**, **Stackoverflow**, **Twitter**

SKILLS

Frameworks: Vue, Nuxt, Svelte, Angular, React, Next.js, PHP

Styling & UI: Tailwind CSS, Sass, Material Design, Bootstrap, Storybook, Figma Data Viz: D3.js, Highcharts

Infrastructure: Firebase, AWS, SQL, Git, Turborepo, NX, Docker

Workflow: Agile (Jira/Azure), AI-driven Development (GitHub Copilot, MCP Protocols)

LANGUAGES

Native Italian, fluent English, basic Spanish.

HOBBIES

Design, Architecture, Music, Films, Technology, Artificial Intelligent

EXPERIENCES

Fast Track — Berlin, Germany - Remote

Leader Frontend AI— Employee Full-time

June 2025 - Feb 2026

Accelerated development cycles by implementing AI-driven workflows (GitHub Copilot, MCP protocols), reducing the "design-to-code" handoff time for high-fidelity Figma components.

Established company-wide AI agent protocols, creating a foundational framework that optimized cross-functional team integration and standardized AI-assisted development.

Spearheaded Design System documentation, improving developer onboarding efficiency and ensuring 100% UI consistency across the Fast Track app ecosystem.

Technologies: Vue, Svelte, Turborepo, Storybook, Tailwind, Github, Jira, Figma

Eva Global — Berlin, Germany - Remote

Senior Frontend Developer — Employee Full-time

Oct 2022 - May 2025

Designed a comprehensive UI library using Angular Material and NX, which served as the backbone for the EV charging platform and reduced frontend bug reports by 20%.

Engineered high-performance data visualizations, including an interactive Heatmap for the Monitoring project, enabling B2B clients to identify infrastructure bottlenecks in real-time.

Transformed complex UX requirements into user-friendly interfaces, leading to a measurable improvement in platform task-completion rates for energy management operations.

Technologies: Angular, Material, NX, Storybook, Gitlab, Jira, Figma

LINUS Finance — Berlin, Germany - Hybrid

Senior Frontend Developer — Employee Full-time

Sep 2021 - Aug 2022

Drove a 15% increase in user engagement by leading the strategic rebuild of the core investment UI using React and Vue. Boosted conversion rates by redesigning the registration funnel with robust validation and intuitive UX, significantly reducing user drop-off during the KYC process.

Streamlined Marketing agility by building modular landing page templates and integrating the "Builder" CMS, allowing the marketing team to deploy campaigns 40% faster.

Technologies: React, Vue, GraphQL, Docker, Builder, Github, Jira, Styled, Figma

[Building Minds](#) — Berlin, Germany - Onsite

Frontend Developer — Employee Full-time

Jan 2020 - Aug 2021

Delivered a modular Management module for a real-estate Angular application, utilizing Redux for state management to handle high-frequency data updates from Microsoft services.

Standardized component development using Material Design, which improved code reusability across three core platform modules.

Technologies: Angular, Redux, Bootstrap, Azure, Abstract, Material, Firebase, Jest

[YUKKA Lab](#) — Berlin, Germany - Onsite

Frontend Developer — Employee Full-time

Jun 2017 - Nov 2019

Engineered high-performance financial visualizations for institutional investors, leveraging D3.js and Highcharts to transform thousands of global news sources into actionable "Network" and "Signal" maps.

Optimized rendering engines for data-heavy charts, achieving seamless real-time interactivity across mobile and desktop, ensuring zero-latency monitoring of critical market shifts.

Technologies: Angular, Material, MySql, Jira, D3, Highcharts, Github, Firebase

[Smava](#) — Berlin, Germany - Onsite

Frontend Developer — Employee Full-time

Feb 2016 - Feb 2017

Key contributor to the launch of the new homepage, one of Germany's leading credit comparison platforms, ensuring high-performance rendering and cross-browser compatibility.

Developed interactive UI elements and complex animations using jQuery, enhancing the visual storytelling and user journey for bank credit comparisons.

Optimized email marketing campaigns through high-quality frontend coding, resulting in consistent performance across diverse mail clients. Received formal letter of recommendation from management (Martin Cichowski) for technical excellence and impact on core site features.

Technologies: HTML, CSS, Javascript, Foundation

PROJECTS

[7echno](#) - Electronic Music Platform

Developed an AI-powered ecosystem for the techno music scene using Svelte and Firebase; implemented intelligent matching and personalized recommendation algorithms.

Technologies: Svelte, Tailwind, Github, Typescript, Firebase, Youtube

[marcellokabora](#) - Portfolio Online

Engineered a custom, interactive career timeline and project showcase; utilized advanced frontend techniques to visualize 10+ years of professional evolution and technical milestones.

Technologies: Svelte, Tailwind, Github, Typescript, Firebase
